## AIDS Pharmaceutical Assistance (APA) Formulary – December 2020

In accordance with Health Resources and Services Administration (HRSA) Policy Clarification Notice 16-02 (dated Oct 2018), a Local Pharmaceutical Assistance Program (LPAP) is operated by a Ryan White Part A or B recipient or subrecipient as a supplemental means of providing medication assistance when an AIDS Drug Assistance Program (ADAP) has a restricted formulary, waiting list and/or restricted financial eligibility criteria. Florida ADAP has a restricted formulary. Therefore, the Florida Ryan White Part B Program has elected to have one APA formulary statewide and to manage a statewide medication formulary workgroup to advise on the APA formulary. LPAP funds are not to be used for Emergency Financial Assistance (EFA); the EFA category, however, may assist with medications not covered by the LPAP.
